

Sprott Copper Miners ETF (Nasdaq: COPP) is the only[^] ETF to provide pure-play^{^^} exposure to large-, mid- and small-cap copper miners, which supply a material critical to energy transmission. Copper demand is likely to increase due to surging energy consumption from developing countries, the evolution of artificial intelligence and the energy transition, further deepening the structural supply deficit. **COPP** seeks to provide investment results that, before fees and expenses, correspond generally to the total return performance of the Nasdaq Sprott Copper Miners™ Index (NSCOPP™). The Index is designed to track the performance of a selection of global securities in the copper industry, including copper producers, developers and explorers.

[^] Based on Morningstar's universe of Natural Resources Sector Equity ETFs as of 12/31/2024.

^{^^} The term "pure-play" relates directly to the exposure that the Fund has to the total universe of investable, publicly listed securities in the investment strategy.

Key Points

- Pure-Play Copper ETF** – The only pure-play ETF focused on large-, mid- and small-cap copper mining companies that are providing a critical material necessary to meet rising requirements for global electricity.
- Essential to Energy Transmission** – Crucial to almost every aspect of electricity, copper is essential to power grids, technology, manufacturing and the energy transition.
- Growing Demand and Challenged Supplies** – The ETF will invest in copper miners poised to help capitalize on rising copper demand, despite copper's constrained supplies, diminishing ore grades, extended lead times for new mines, and dwindling inventories.
- Well-Positioned Companies** – Companies upstream in the supply chain may be well-positioned to benefit from the increased investment in copper necessary to meet the rising global demand for energy.

Copper Supply and Demand Imbalance May Likely Grow

Source: BloombergNEF Transition Metals Outlook 2024. The line represents demand and the shaded area represents supply. Demand is based on a net-zero scenario, i.e., global net-zero emissions by 2050 to meet the goals of the Paris Agreement. Included for illustrative purposes only.

Performance data quoted represents past performance. Past performance does not guarantee future results. Current performance may be higher or lower than actual data quoted. Call 1.888.622.1813 or visit www.sprottetfs.com for current month end performance. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

* Returns less than one year are not annualized.

¹ Inception Date: 3/5/2024.

² Market Price is based on the midpoint of the bid/ask spread at 4 p.m. ET and does not represent the returns an investor would receive if shares were traded at other times.

³ The Nasdaq Sprott Copper Miners™ Index (NSCOPP™) was co-developed by Nasdaq® (the "Index Provider") and Sprott Asset Management LP (the "Sponsor"). The Index Provider and Sponsor co-developed the methodology for determining the securities to be included in the Index and the Index Provider is responsible for the ongoing maintenance of the Index. The Sponsor will provide certain services in connection with the Index including contributing inputs in connection with the eligibility and process to determine the initial selection and ongoing composition of the Index constituents. The MSCI All Country World Index (MSCI ACWI) includes stocks from 23 developed countries and 24 emerging markets, covering approximately 85% of the global investable equity opportunity set. One cannot invest directly in an index.

About Sprott – Sprott is a global leader in precious metals and critical materials investments. We are specialists. Our in-depth knowledge, experience and relationships separate us from the generalists. Our investment strategies include Exchange Listed Products, Managed Equities and Private Strategies. Sprott has offices in Toronto, New York, Connecticut and California and the company's common shares are listed on the New York Stock Exchange and the Toronto Stock Exchange under the symbol (SII). For more information, please visit www.sprott.com.

IMPORTANT DISCLOSURES & DEFINITIONS

An investor should consider the investment objectives, risks, charges and expenses carefully before investing. To obtain a Sprott Copper Miners ETF Statutory Prospectus, which contains this and other information, visit <https://sprottets.com/copp/prospectus>, contact your financial professional or call 1.888.622.1813. Read the Prospectus carefully before investing.

Investors in the Fund should be willing to accept a high degree of volatility in the price of the Fund's shares and the possibility of significant losses. An investment in the Fund involves a substantial degree of risk. The Fund is not suitable for all investors. The Fund is considered non-diversified and can invest a greater portion of assets in securities of individual issuers than a diversified fund. As a result, changes in the market value of a single investment could cause greater fluctuations in share price than would occur in a diversified fund.

Shares are not individually redeemable. Investors buy and sell shares of the Sprott Copper Miners ETF on a secondary market. Only market makers or "authorized participants" may trade directly with the Fund, typically in blocks of 10,000 shares.

Funds that emphasize investments in small/mid-cap companies will generally experience greater price volatility. Diversification does not eliminate the risk of investment losses. ETFs are considered to have continuous liquidity because they allow an individual to trade throughout the day. A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses, affect the Fund's performance.

The Sprott Copper Miners ETF seeks to provide investment results that, before fees and expenses, generally correspond to the total return performance of the Nasdaq Sprott Copper Miners™ Index (NSCOPP™).

Investors in the Fund should be willing to accept a high degree of volatility in the price of the Fund's shares and the possibility of significant losses. An investment in the Fund involves a substantial degree of risk. Therefore, you should consider carefully the risks listed in the prospectus before investing in the Fund.
